S I R:

In response to the final Office Action mailed on June 20, 2002, the following amendments and remarks are respectfully submitted:

Please amend the application as follows:

In the claims:

1. (Twice amended) A method for registering a mobile communication device to a service comprising:

receiving a device identifier for the mobile communication device via a communication network, wherein the device identifier is correlated with information concerning what services the mobile communication device has a technical capability to access;

receiving, via the network, a request for a service to be provided to the mobile communication device;

please do not enter
